Cover on Market Value	Exclusive Security Cover Ratio	1.03													

* Receivables under financing activities consist of loans which are carried at amortised cost. The business model for managing these loans is "hold to collect" cash flows that are solely principal and interest. Accordingly these loans are not fair valued and the book value of loans (after netting of impairment) are considered as the value of security for the purposes of this certificate.

** Security cover ratio is calculated only for debt for which this certificate is issued.

1. All Loans assets mentioned in Column C & Column D are standard assets.

2. Loans includes principal outstanding plus interest receivables & accrued add/less Ind As adjustment less provision for expected credit loss.

3. Debt Securities to which this certificate pertains includes principal outstanding plus interest accrued add/less Ind As adjustment.
